The teleconference we had with Ms. Nolan this morning was the most unprofessional phone call we have witnessed. This resolution that EPA could help the Iliamna Village Council is not true. We think it is unnecessary for us to deal with Ms. Nolan, who put the Village in this terrible situation in the first place. She is not wanting to help us at all. Then for her to question how we are associated with the Tribe beyond unprofessional. We are not even sure who the other person was on the line with her. EPA suggesting for us to resolve this issue is not working and you all are playing games with us.

This is why the Iliamna Village Council does not think EPA is here to help the Tribes, especially since Lisa Jackson could not even meet with us in Iliamna (closest community to the Pebble Project) or even meet with us Washington DC. You all don't have time for us and to come in the communities like you care about our Villages. Whatever agency that thinks a non-profit Tribe has money to pay back any debt is out of touch with all the tribes.
